

CITY OF NEW ORLEANS®

Musician Sculptures, New Orleans, LA

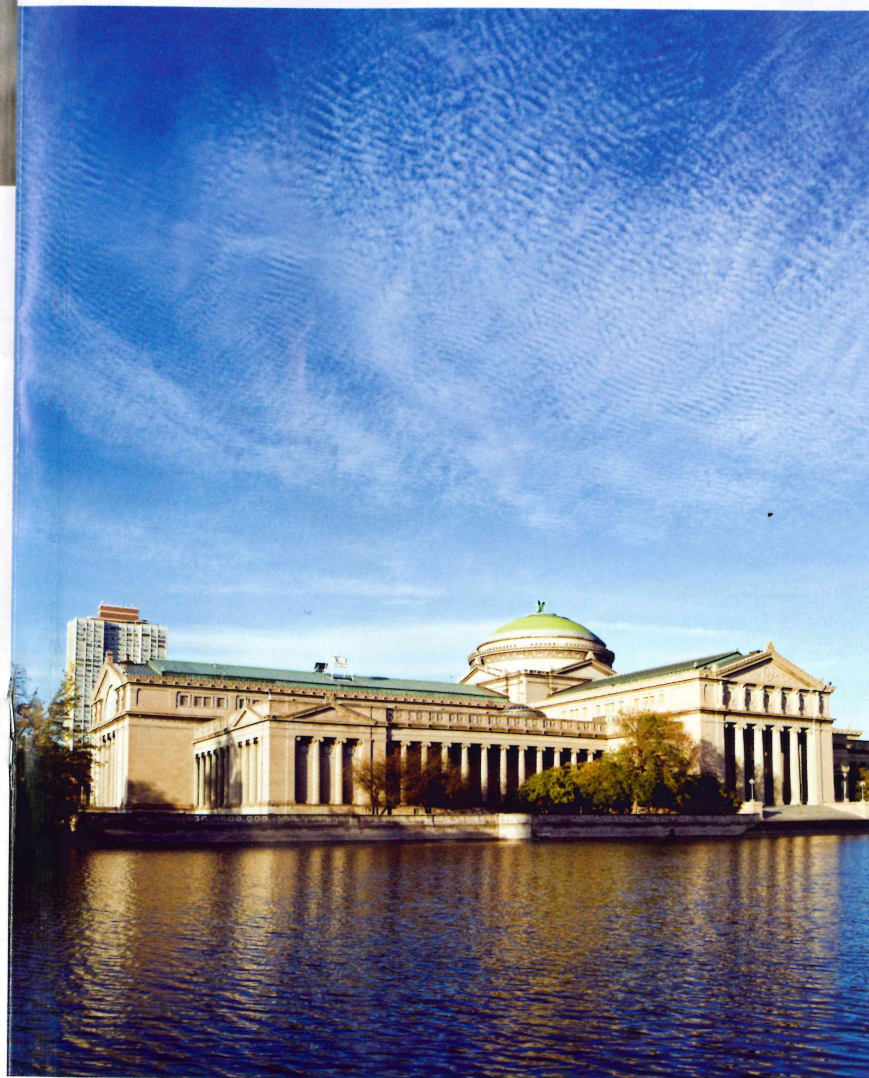

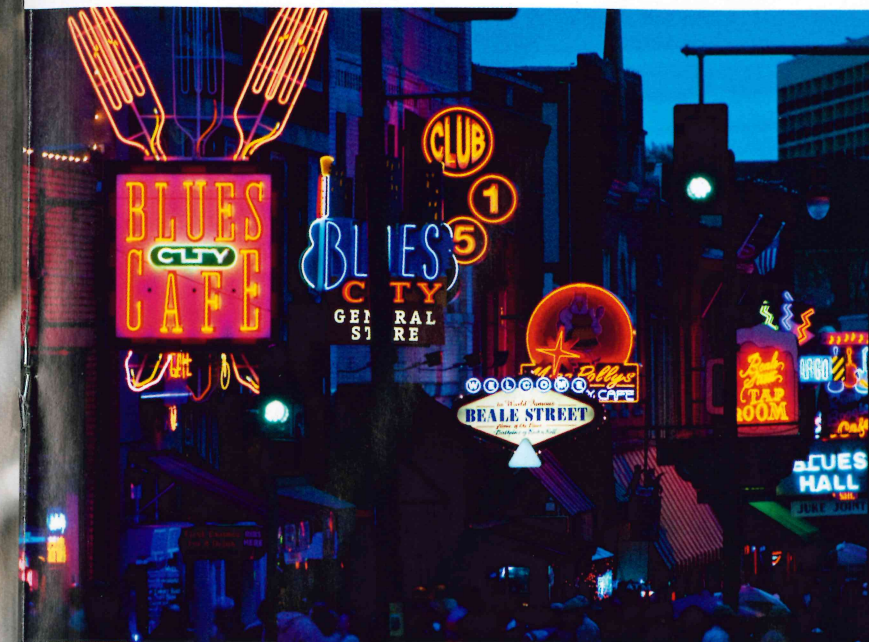

TAKE THE TRAIN THAT'S BECOME AN AMERICAN ICON. Named for the title train of a popular folk song, the City of New Orleans links Chicago, Memphis and New Orleans, and boasts some of the most exciting attractions along any Amtrak route.

Chicago is known for its world-class shopping and dining. But you'll also find draws like the Museum of Science & Industry, a 14-acre marvel featuring a real German U-boat and 13-foot 3-D model of the human heart. For an unparalleled view of the city, head to the top of the 1,450-foot Willis Tower. Formerly known as the Sears Tower, it's still the tallest building in the Western Hemisphere.

Traveling south to Memphis, you won't want to miss the city's two most famous attractions: its food and its music. Dance your way down Beale Street, pay your respects to The King at Graceland, and tuck into some ribs at the world-famous Rendezvous restaurant.

At the end of the line, you'll discover one of America's most unique cities. Much like the famous *étouffée* served in its restaurants, New Orleans is an irresistible mix of cultural influences. Known as the Big Easy for its laid back attitude, the city is truly a treat for your senses. See the intricate iron balconies lining the French Quarter. Hear the cool jazz and ebullient Zydeco streaming from clubs. Taste the hearty gumbo, overstuffed Po' Boy sandwiches and sweet beignets. With so much to fall in love with, it's no wonder people write songs about New Orleans.

Thruway CONNECTION Amtrak Thruway Service offers connecting transportation to destinations such as Baton Rouge, LA, and St. Louis, MO, from the City of New Orleans. Amtrak takes care of booking and ticketing, so it's a no-hassle way for you to see more and do more on your journey.
